PROFILE

Recent Information Technology graduate transitioning into UX/UI design, with hands-on experience designing and shipping a live B2B website for Ultrafood Distributors Inc. — from wireframes to working front-end code, plus prototype testing that caught issues before development. Backed by a Research Congress Award and a capstone project grounded in user research and usability testing, I'm looking to bring that same, user-first approach to a full-time UX/UI role.

EDUCATION

City of Malabon University

Bachelor of Science in Information Technology

City of Malabon University, Malabon City

June 30, 2026

EXPERIENCE

Ultrafood Distributors Inc. (Internship)

UX/UI Designer, Landing Page Front end Developer (Lead Designer)

Valenzuela City, Philippines

January 2026 – April 2026

- Led end-to-end UX/UI design of a B2B FMCG corporate website across 3 brand pages during a full company website development.
- Designed the interactive History Timeline by translating 20 years of brand milestones into a structured visual narrative, improving overall storytelling and user engagement.
- Developed the front-end of the main landing page by converting approved designs into responsive, production-ready code for seamless design-to-development handoff.
- Conducted live prototype testing prior to development handoff, catching UX issues early and minimizing costly late-stage design revisions.
- Implemented SMTP email integration for client-facing services with branded email templates, and developed customized PDF templates for Menu and Nordic Product Recipe content, currently deployed and in active use on the company's live site (<https://ultrafoodinc.com>).

Capstone Project

UX/UI Design Lead & Front end Developer

Academic Project

2025

- Led the UX/UI design process for a comprehensive capstone project, applying user-centric design principles.
- Conducted user research and usability testing to validate design concepts, ensuring alignment with user needs and expectations.
- Collaborated with professors to gather insights and drive design decisions, enhancing overall project outcomes.

SKILLS AND AWARDS

- Technical skills: Figma, Miro, React, HTML, CSS, JavaScript, Tailwind CSS
- Soft skills: Wireframing, Stakeholder Collaboration, Detail-Oriented
- Award: Research Congress Awardee, 2025
